

Updated Laboratory Animal Regulatory Workbook

An excellent resource to use in preparation for the management and technician certification exams.

The workbook contains summaries of key points and practice questions for five regulatory mandates.

1. Guide for the Care and Use of Animals
2. Animal Welfare Act and Regulations
3. Public Health Service (PHS) Policy on Humane Care and Use of Laboratory Animals
4. Good Laboratory Practice Standards (GLPs)
5. 2000 Report of the AVMA Panel on Euthanasia
