ingentaconnect Usage Statistics

Every registered institution on ingentaconnect is entitled to free usage statistics reports. Reports are available as .csv files by email or as XML files via SUSHI.

ingentaconnect usage reports are compliant with the COUNTER Code of Practice Release 3 as referenced at www.projectcounter.org

All reports contain data for the selected calendar year. Titles with zero usage in the time period are not listed.

A small number of publishers have chosen not to participate in ingentaconnect library statistics at this time, so their titles will not be listed.
