   Change to:  
   8. A unit of sound intensity |
| p. 27, Unit Two, Chapter 5, Question 2 | Which of the following is NOT a method used to test for residual microorganisms following decontamination?  
   Change to:  
   Which of the following is NOT a method used to test for residual microorganisms following decontamination of a room? |
| p.33, Chapter 7, Question 17 | Match the water parameter on the right with the description on the left:  
| a. Specific gravity  
| b. Hardness  
| c. pH  
| d. Ammonia  
| e. Light  
| e. Oxygen  
|  
| 1. Tank water must have sufficient quantities of this for fish to breathe  
| 2. A waste product that can be toxic and must be removed from tank water  
| 3. Maintaining low levels of this limits the growth of algae on the tank surfaces  
| 4. A measure of the acidity or alkalinity of the tank water  
| 5. A measure of the amount of dissolved salts and minerals in the tank water  
| 6. The amount of calcium or magnesium ions in the water  

**CORRECTION**  
Match the water parameter on the right with the description on the left:  
| a. Specific gravity  
| b. Hardness  
| c. pH  
| d. Ammonia  
| e. Chloramine  
| f. Oxygen  
|  
| 1. A dissolved gas necessary for aquatic life  
| 2. A disinfectant that must be removed from tank water before use in aquaria  
| 3. A biological waste product that is metabolized by the biological filter  
| 4. The acidity or alkalinity of the tank water  
| 5. The amount of dissolved salts and minerals in the tank water  
| 6. The amount of calcium or magnesium ions in the water  

Answer key: 1f; 2e; 3d; 4c; 5a; 6b
| p.41, Unit 2 exam Question 5 | Why are vermin a problem in animal facilities?  
| | a. They can eat animal feed, which wastes facility funds  
| | b. They can spread disease to the laboratory animals  
| | c. They are upsetting for researchers to see  
| | d. Their waste is a mess to clean up  
| CORRECTION | Which statement is FALSE?  
| | a. Pests can contaminate feed and water supplies.  
| | b. Pests can spread disease to the laboratory animals.  
| | c. Daily checks and visual inspection are an important component of pest management  
| | d. Pest control is not important in biosecure facilities  
| Answer key: d |

| p.44, Unit 2 exam, Question 30 | What is one problem associated with high humidity in an animal room?  
| | a. Food can spoil more quickly.  
| | b. Breeding may be affected.  
| | c. Bedding will need to be changed less often.  
| | d. Animals may suffer from dermatitis.  
| CORRECTION | What is one problem associated with high humidity in an animal room?  
| | a. Food can spoil more quickly.  
| | b. Dams are more likely to cannibalize their young.  
| | c. Bedding will need to be changed less often.  
| | d. Animals may suffer from ringtail.  
| Answer key: a |
| p.48, Unit 2 exam, Question 47 | What type of diet, when fed to rodents, does not wear down their teeth and may allow the teeth to overgrow?  
   a. Ground feed  
   b. Pelleted feed  
   c. Dry feed  
   d. Extruded feed  

CORRECTION  
Ground feed is often known as what?  
   a. Fines  
   b. Diet  
   c. Flake  
   d. Meal  

Answer key: d |
| p.39 Chapter 10, Question 3 | Feed bags should be stored on the floor of a cool dry room, 6 inches from the wall.  
Answer key says True  

CORRECTION  
Answer key should say False: Feed bags should be stored off the floor, 6 inches from the wall in a cool dry room. |
| p.49, Chapter 11, Question 14 | What procedure should an animal technician perform before disposing of animal shipping containers?  
   a. Remove any feces or animal waste  
   b. Eliminate the label that says “live animals”  
   c. Double-check the container for any remaining animals  
   d. Verify the vendor does not want the empty container back  

CORRECTION  
Which of the following is a sign of heat stress in rabbits?  
   a. Tooth grinding  
   b. Self-mutilation  
   c. Sweating  
   d. Excessive salivation  

Answer key: d |
| p. 134, Answer Key, Chapter 4, Question 6. c. | c. 8. A unit which measures loudness: p. 23  
Change to:  
c. 8. A unit of sound intensity: p. 23 |
